JUDGMENT

Approval of Transaction and Fees (Art. 590 C.C.P.)

[1] A transaction agreement was entered into between FormerXBC Inc., formerly known as Xebec Adsorption Inc. and the applicants on May 26, 2023. This Transaction provides for a global \$5 million payment to be distributed among the members of four subclasses having filed claims, according to preestablished proportions, after deduction of the Class counsel fees and disbursements and the Claims administrator costs.

[2] On June 30, 2023, the Court authorized the institution of the class action for the sole purpose of approving the Transaction (the "**Authorization Judgment**"). It approved the notices to be addressed to members for this purpose and a distribution mode¹.

[3] The preparation and distribution of the notices was duly carried out.²

[4] Applicants now ask this Court to approve the Transaction, the plan of allocation, the notices, the distribution plan and the claims forms and to set the claims bar deadline. They also ask the Court to approve the fees of class action counsel in a proportion of 30% of the \$5 million payment, plus taxes and disbursements (the "**Approval Application**").

[5] The Tribunal will approve the Transaction and the fees for the reasons set out below, which will be presented in the three following sections : (1) the claims and the chronology of proceedings, (2) the examination of whether the settlement is fair, reasonable and equitable for all class members and (3) the examination whether the Class Counsel Fees are fair and reasonable.

ANALYSIS

1. The claims and the Chronology of Proceedings

[6] Xebec Adsorption inc. was headquartered in Montréal, Québec, and operated across Canada, the USA, the Middle East and Asia in the areas of cleantech solutions, industrial service and support and renewable gas infrastructure, through various subsidiaries. It established this global position as a result of numerous acquisitions.

[7] Among other acquisitions, Xebec purchased all the issued and outstanding shares of Green Holding B.V., the parent company of HyGear Technology and Services B.V. The purchase was completed though a combination of cash and stock consideration. For purposes of this transaction, the value of Xebec's shares was deemed to be \$6.03. Pursuant to this transaction, class representative Evert Schuringa held and still holds 18,416 Xebec shares.

¹ *Leclair c. FormerXBC inc. (Xebec Adsorption inc.), 2023 QCCS 2416.*

² See affidavit of Taek Shoo Shin, summarized at par. 44 of the Approval Application.

[8] To finance, amongst others, the Green Holding B.V. acquisition, Xebec used the proceeds of an offering which had a public and a private component.

[9] For the purposes of the public component, Xebec issued a preliminary prospectus and a final prospectus (collectively the "Prospectus").

[10] Once public, Xebec shares were traded on the TSX. Xebec made the required regulatory filings, including quarterly financial statements. Maurice Leclair purchased 2000 shares in the secondary market at a price of \$6.98 per share.

[11] A bright future was envisaged.

[12] Things did not turn out as expected.

[13] Schuringa and Leclair claim that "as a result of Xebec's disclosures on March 12, 2021, the Xebec's securities share price plummeted by approximately 31% overnight on March 21, 2021" and that a further decline occurred on March 25, 2021.

[14] They filed an application under s. 574 C.C.P. and s. 224.5 of the Quebec *Securities Act*³ ("QSA") to obtain the authorization to act on behalf of a class which, in its most recent iteration, is comprised of the following members (the "**Authorization Application**"):

all persons and entities, wherever they may reside or may be domiciled, who purchased or otherwise acquired Xebec's securities during the Class Period, and held some or all of such securities as of the close of trading on the TSX on March 11, 2021 or March 24, 2021, other than the Excluded Persons;

"Class Period" means the period from November 10, 2019 to March 24, 2021, both dates inclusive;

"Excluded Persons" means the following persons and entities:

- i) Xebec;
- ii) the Underwriter Defendants and their respective past or present subsidiaries, directors, officers, legal representatives, predecessors, successors and assigns;
- iii) the Individual Defendants, members of their immediate families and any entity in which the Individual Defendants hold a controlling interest; and

³ RLRQ, c. V-1.1.

iv) SDI, Oost NL and the Trust Foundation, as those entities are defined in the Share Purchase Agreement dated December 8, 2020 with Xebec Europe B.V.

[15] Leclair and Schuringa are of the view that Xebec improperly accounted for its revenue and provided deficient disclosures relative to its legacy, production-type renewable natural gas ("RNG") contracts and that it misrepresented the true state of its finances. They summarize their position as follows in the motion to authorize the transaction:

23. At the material times relevant to this action, Xebec purported to recognize and report revenue on the legacy RNG contracts on the "percentage of completion" accounting basis, thereby recognizing and reporting the revenue on an ongoing basis and before the RNG facilities were installed and commissioned. The percentage of completion revenue accounting measures the revenue earned during the reporting period based on the rate of the progress of the project. A project's rate of progress is, in turn, determined based on the cost incurred relative to the project's total cost.
24. On March 12, 2021, Xebec issued a press release, in which Xebec disclosed that it had encountered accounting and/or operational issues with respect to the RNG contracts, which negatively impacted Xebec's revenues in fiscal year 2020.
25. On March 25, 2021, Xebec issued its financial and operational disclosures for fiscal year 2021, which provided further details regarding the adverse impact of the RNG contracts on Xebec's financial and operational results.
26. In broad terms, the action arises out of one main allegation: during the relevant period, Xebec's core business involving the manufacturing and installation of RNG production facilities had been negatively impacted due to increased costs and extended delays. As a result, the plaintiffs allege that during the relevant period:
 - a. the Defendants mis-applied the percentage of completion accounting method. Consequently, the Defendants reported inflated revenue from the legacy, production-type RNG contracts; and
 - b. the Defendants' disclosures otherwise regarding Xebec's revenue from those contracts was incorrect and had no reasonable basis.

[16] They advanced four causes of action giving rise to their claim for damages, namely: misrepresentations in the primary market (s. 218 and following of the QSA); misrepresentations in the secondary market (s. 225.8 QSA); extracontractual liability as a result of a fault (art. 1457 CCQ) and an oppression remedy (s. 241 and following of the Canadian Business Corporations Act).

[17] They are of the view that aside from Xebec, the two following groups are also responsible for their losses:

- 17.1. Underwriters: Desjardins Securities Inc., TD Securities Inc., National Bank Financial Inc., Canaccord Genuity Group Inc., Raymond James Ltd., Beacon Securities Limited and Stifel Nicolaus Canada Inc. who all acted as underwriters.
- 17.2. Directors and officers: Kurt Sorschack, Xebec's president and CEO and a director and the Chairman of the board of directors, Louis Dufour its CFO until his resignation on November 10, 2020 and his replacement Stéphane Archambault, as well as William Beckett and Guy Saint-Jacques who acted as directors and members of the Audit Committee.

[18] Mr. Justice Donald Bisson was named to carry out the case management of the Authorization Application. Certain preliminary measures were argued and decided and the Authorization Application was set to be heard by Justice Bisson on December 6, 2022.

[19] On September 29, 2022, the undersigned, relying on his powers under the *Companies' Creditors Arrangement Act* ("CCAA"),⁴ issued an Initial First Day Order ("IFO") among which conclusions, a stay or proceedings was ordered both against Xebec as well as against its directors and officers. As a result, the Authorization Application was stayed.

[20] Schuringa and Leclair then attempted to have this stay lifted. They were unsuccessful, the undersigned refusing to do so.⁵

[21] An agreement in principle then intervened in April 2023 amongst the parties.

[22] Case management of the class action was then transferred to the undersigned.

[23] A limited stay of the CCAA proceedings was ordered for the sole purpose of approving the transaction.⁶

[24] As already indicated, a judgment authorized the Authorization Application for the sole purpose of approving a transaction (the "Authorization Judgment"). The Authorization Judgment ordered that any person who wished to opt-out from the class action and the Settlement Agreement could do so by delivering a notice before August 31, 2023. Only one member properly did, even though three manifested their intention to do so⁷.

⁷ It is an objection received by Class Counsel on July 17, 2023, filed by one person, holding 330 shares.

[25] The Authorization Judgment also ordered class members who wished to object to the Court approval of the Transaction to do so on or before September 8, 2023. One person filed a contestation, but only regarding the Counsel fees.⁸ This person was not present at the hearing to explain his point of view.

[26] The hearing to approve the Transaction was held on September 29, 2023. No one was present to contest. The Fonds d'aide aux actions collectives was present but had no issue with the Transaction.

2. Is the Transaction fair, reasonable and equitable to all class members?

2.1 The governing principles

[27] The Court must approve the Transaction if it is fair and equitable and if it is in the members' best interest who will be bound by it.

[28] As Justice Mark Schrager of the Québec Court of Appeal wrote, the Court must « garder à l'esprit les grands principes et objectifs sous-jacents aux actions collectives, soupeser les avantages et inconvénients du règlement, de même que les concessions réciproques, les risques d'un procès et les coûts à encourir »⁹. Justice Schrager explains that the « évaluation du caractère juste et raisonnable de la transaction s'articule souvent autour des critères suivants »¹⁰, namely :

- Les probabilités de succès du recours;
- L'importance et la nature de la preuve administrée;
- Les modalités, termes et conditions de la transaction;
- La recommandation des avocats et leur expérience;
- Le coût anticipé et la durée probable du litige;
- Le cas échéant, la recommandation d'une tierce personne neutre;
- La nature et le nombre d'objections à la transaction;
- La bonne foi des parties et l'absence de collusion

¹⁰ *Id.*

[29] These criteria are not cumulative; they must be appreciated and weighed as parts of a whole. The Court shares Justice Lukasz Granosik's view that « la bonne foi des parties et l'absence de collusion » is a «condition *sine qua non* de la validité de la transaction envisagée ».¹¹

[30] Several judgments relying on Justice Bisson's reasons in *Schneider*¹² also take into consideration two further factors: the representatives' agreement and the number of exclusions.

[31] The principles of procedure warrant that settlements must be favoured. This entails that it must be accepted that compromises are to be made by all sides.¹³

2.2 Applying the criteria to the facts at hand

[32] In the present matter, there is no recommendation of a neutral third party. Also, the representatives, Schuringa and Leclair agree with the settlement and have filed affidavits to confirm this¹⁴. The Court will therefore examine the other criteria discussed above.

2.2.1 The probabilities of success

[33] Securities litigation is a complex matter.

[34] The claims which are being pursued by Plaintiff touch both on alleged misrepresentations in the primary (s. 217 and following QSA) and in secondary market claims (s. 225.2 QSA). If the statutory conditions are met, a plaintiff may rely on the presumptions set out at sections 225.0.2 and s. 225.12 QSA of the QSA. Specific defenses are set out to rebut primary market and secondary market liability. On the other hand, if the claims are pursued under art. 1457 CCQ, then fault, damages and causality must be proven as the QSA presumptions do not apply.

[35] Secondary market claims are subject to the court's prior authorization which will be granted if the action is brought in good faith and if there is a reasonable possibility that it can be resolved in favour of plaintiff (S. 225.4 QSA). This reasonable possibility threshold is a "different and higher standard than the one applicable to proposed class actions, which requires that "the facts alleged appear to justify the conclusions sought"".

¹³ *Abihsira c. Stubhub inc.*, 2019 QCCS 5659, par. 20.

¹⁴ They have both filed affidavits indicating their support.

The applicant must “offer both a plausible analysis of the applicable legislative provisions, and some credible evidence in support of the claim”¹⁵.

[36] In this case, things were complicated because after the Authorization Application was filed, Xebec sought CCAA protection.

[37] Applicants claims are directed at three defendant groups. The recovery potential for each defendant group must be canvassed.

- **Xebec**

[38] Proving the existence of financial misrepresentations is difficult and requires extensive expert evidence.

[39] Setting aside these difficulties, and focusing only on potential of recovery, the only potential source of recovery from Xebec is the insurance policy proceeds. Indeed, as a result of the CCAA proceedings, Xebec’s business and that of all its direct or indirect subsidiaries have been, or are in the final stages of being liquidated. Substantial proceeds have been collected and a distribution method is being finalized. A large part of the proceeds has or will be paid to the secured creditors. If plans of arrangement are prepared and approved for some but not all subsidiaries of Xebec, sums will be distributed to the ordinary creditors of these entities. They will not cover 100% of the value of the claims which were filed and accepted by the Monitor; far from it.

[40] As the undersigned has already explained in the context of his judgment on the lifting of the stay of proceedings,¹⁶ the claims which the Class members would have pursued are “equity claims” within the meaning of ss. 2(1) of the CCAA. If their claims are recognized and liquidated, ss. 6(8) of CCAA still provides that no compromise or arrangement “can be sanctioned by the court unless it provides that all claims that are not equity claims are to be paid in full before the equity claim is to be paid”. Hence, no funds will be paid to Xebec’s shareholders.

[41] Resort may be had to an insurance policy which has a maximum \$10 million payout. This is the maximum value that could be collected from Xebec. It cannot be excluded that the insurer would raise coverage issues. The \$5 million settlement is 50% of the policy’s maximum pay out value.

- **Officers and directors**

[42] Defences exist for the Directors and Officers if misrepresentations are proven.

¹⁵ *Nseir c. Barrick Gold Corporation*, 2022 QCCA 1718, par. 40.

¹⁶ *Arrangement relatif à Xebec Adsorption Inc.*, 2022 QCCS 3888

[43] Be that as it may, the officers and directors will undoubtedly seek releases in the CCAA proceedings or plans of arrangements. Without deciding whether it is appropriate to grant such releases and what should be the extent thereof, the prospects of continuing the claim against the officers and directors are uncertain.

[44] If these obstacles are overcome, then the question of financial recovery must be addressed. The directors and officers are individuals. They appear to be covered by the same insurance policy as Xebec and are therefore included in the same aggregate limit. Once again, coverage could be an issue.

- The Underwriters

[45] The claims against the Underwriters would be limited to the primary market claimants. The same challenges would be posed to establish the existence of misrepresentations.

[46] An added obstacle comes from the fact the Underwriters have a contractual indemnification claim which would allow them be indemnified by Xebec and its directors and officers in the event of misleading representations. This in turn will lead to a debate as to the Underwriters responsibility if the directors and officers are released.

- Conclusion

[47] This summary analysis brings to the fore that there are significant challenges to obtain a favourable judgment against each of the three groups of defendants. There are even greater challenges to collect any award.

[48] The analysis of this first factor therefore weighs heavily in favour of the settlement.

2.2.2 The extent and nature of the proof to be adduced, the duration of any trial and the anticipated cost to litigate the claim

[49] The litigation, if it were to go ahead, would be a drawn-out affair. A long and hard-fought battle would be waged throughout at least three distinct steps. First, the CCAA stay would need to be lifted. Also, any releases which may be sought would have to be contested by the Applicants. Then, authorization would need to be obtained, which would entail meeting the QSA reasonable possibility threshold. Thirdly, once authorization was granted for some or all defendants, then it would need to be proven that the value of the long-term contracts was misrepresented. This would be arduous and would require significant expert evidence. A long trial would be necessary.

[50] This factor therefore also weighs heavily in favour of approving the settlement.

2.2.3 The conditions and modalities of the transaction and its exclusions

[51] In the period leading up to the Transaction, a mediation was first conducted by Mr. Joel Wiesenfeld, a mediator who during his practice was recognized as one of Canada's leading securities litigation lawyers. It was unsuccessful.

[52] Plaintiffs explain in their Approval Application that this was "followed by hard fought, arm's length negotiations amongst the parties over several months". Despite the positive outcome, the Transaction still calls for Class members to make substantial concessions.

[53] Firstly, Xebec and the directors and officers are not contributing to the settlement, other than through their insurer, for an amount of \$5 million which represents half of the full amount of potential available coverage. Xebec has no means to make a contribution. The directors and officers will, no doubt, seek releases in the course of the CCAA proceedings either through arrangements or orders. The Court reiterates that it is not taking any position on the validity or proper scope of any such eventual releases, but clearly this constitutes an important factor in assessing the reasonability of the concessions which are made.

[54] Secondly, the Underwriters are not contributing financially to the settlement even though they will benefit from a release. The Plaintiffs argue that this is appropriate because the release provides an essential level of certainty and finality. The Court agrees. Indeed, Xebec has by contract undertaken to indemnify the Underwriters and, absent release, a risk of a recusory claim by the Underwriters against Xebec's insurer or the directors and officers would persist, were Xebec shareholders to file claims against the Underwriters. Hence, the lack of release and the lingering perspective of a claim against the Underwriters would have constituted a potentially insurmountable obstacle to settle this matter. Accounting for the underlying risks canvassed above, and given that the release lifts an insurmountable obstacle to settlement, releasing the Underwriters appears to be a reasonable concession.

[55] Thirdly, in the Plan of Allocation referred to in the Transaction, Class members will be regrouped into one of four sub-classes which will be treated differently. The four groups are described as follows in the Approval Application:

- a. Secondary market group: Claimants who purchased or otherwise acquired Xebec's securities in the secondary market;
- b. Prospectus Offering Group: the Claimants who purchased or otherwise acquired Xebec's securities pursuant to a Final Short Form Prospectus dated December 21, 2020, at \$5.80 per Xebec shares;

- c. Private Placement Group: the Claimants who purchased or otherwise acquired Xebec's securities in a private placement that was undertaken concurrently with, and on substantially the same terms as those of, the prospectus offering; and
- d. HyGear Transaction Group: the Claimants who acquired Xebec's securities in connection with the transaction whereby Xebec acquired HyGear in December 2020, for a deemed value of \$6.03 per Xebec share.

[56] Each Class member will be assessed a Compensable Loss which will be calculated by using the following formula:

$$\text{Compensable Loss} = \text{Gross Loss} \times \text{Applicable Risk Adjustment}$$

[57] In their Approval Application, Plaintiffs describe as follows how Gross Loss will be calculated:

- a. if the Claimant sold the securities within 10 trading days after the corrective disclosure, the Claimant's Gross Loss would be the difference between the price paid for the purchase of the securities and the price received upon the sale of those securities. In this case, there are two alleged corrective disclosures, being March 12, 2021 and March 25, 2021. Accordingly, any securities sold within the period from March 12, 2021 to April 8, 2021 would be deemed to have been sold within the 10 trading day following a corrective disclosure; and
- b. if the Claimant sold the securities after the 10 trading days following the corrective disclosures, or the securities were never sold, the Claimant's Gross Loss would be the difference between the price paid for the purchase of the securities and the volume weighted average price of the securities during the 10 trading days following the corrective disclosure. In this case, Class Counsel have calculated the volume weighted average price of the securities during the 10 trading days following the alleged corrective disclosure to be \$4.58

[58] A variable risk adjustment is made to the Gross Loss of the four distinct groups of claimants. This reflects a nuanced analysis which takes into account the relative strengths and weaknesses of the position of each of these groups.

Category	Applicable Risk Adjustment
Secondary Market	35%
Prospectus Offering	50%
Private Placement	10%
HyGear Transaction	35%

[59] The Plan of Allocation offers useful summary tables which summarize who will be entitled to a Compensable Loss.

[60] For the Secondary Market purchasers, the following table is provided:

[64] A claims process will be put in place, run by the claims administrator Velvet Payment (the “Claims Administrator”). The process they will follow will include the following steps:

- 64.1. Class Counsel will pay Plaintiffs full compensable loss, namely \$1,680 for Leclerc and \$9,346.12 for Schuringa and will deduct the fees and Class Counsel disbursements authorized by this judgment.
- 64.2. Class Counsel will then transfer the remaining balance in an escrow account to be designated by the Claims Administrator.
- 64.3. The Claims Administrator will then, as per s. 35 of the Plan of Allocation, make payments once the claim is assessed to claimants, from the Escrow

Account, on a prorated basis¹⁷. The Claims Administrator will not make payments to Claimants whose allocation is less than \$25.00.

[65] If there remains a reliquat in the Escrow Account, it will be dealt with as follows:

36. If the Claims Process Escrow Account is in a positive balance (whether by reason of tax refunds, un-cashed cheques or otherwise) after one hundred and eighty (180) days from the date of distribution of the Settlement Distribution Fund, the Claims Administrator shall, if feasible, allocate such balance among Claimants with valid and approved claims with allocations exceeding \$25.00 in an equitable and economic fashion. Thereafter or if not feasible, any remaining funds will be distributed as follows:

(a) The Regulation respecting the percentage withheld by the Fonds d'aide aux actions collectives, c. F-3.2.0.1.1, r.2 will apply to the portion of any remaining balance.

(b) If the Claims Administrator determines, at its discretion, that funds that cannot be economically allocated among Claimants, the Claims Administrator shall, after payment is made to the Fonds d'aide aux actions collectives, hold the balance in the Escrow Account pending further directions of the Court, and if appropriate, seek cy-près payment of such excess fund to a recipient to be approved by the Court.

[66] Plaintiffs argue that the Transaction is generally consistent with settlements achieved and approved by courts in Ontario and British Columbia¹⁸. Such comparisons have a limited value, because each matter is uniquely fact driven. Nevertheless, the Court does recognize that the \$5 million Transaction value is on the high end of the spectrum.

[67] Taking all this into account, the Court deems that the modalities of the Transaction weigh in favour of its approval.

2.2.4 Class Counsel's recommendations and their experience

[68] Class Counsel is composed of a team which includes Me David Assor of Lex Group on the one hand and Mes Eli Karp and Sage Nematollahi on the other. The latter hold authorizations of the Barreau du Québec to act in the present matter. Me Assor has extensive experience in acting for plaintiffs in class actions in Québec. Mes Karp and Nematollahi also have extensive class action experience in the province of Ontario, and more specifically in the area of securities class actions.

[69] They all recommend that the Transaction be approved. This therefore speaks in favour of approving the Transaction.

2.2.5 Objections

[70] Only one objection has been filed. It does not deal with the merits of the Transaction. Rather, it objects to the amount of fees claimed by Class Counsel.

[71] It must be noted that Class Counsel were in contact with some 560 investors by email. The fact that only one objection was filed which does not deal with the modalities of the Transaction, also speaks in favour of the Transaction.

2.2.6 Conclusion

[72] The criteria set out in *A.B.* when applied to the case at hand all weigh in favour of the Transaction's approval even though concessions must be made, more by some group of claimants than by others. Given the limited insurance proceeds available for a settlement, the Court concludes that the Transaction is fair, reasonable and equitable for all the Class members and must be approved.

3. The Class Counsel Fees

[73] As per art. 593 C.p.c., the Court must approve the fees and disbursements of Class Counsel.

[74] Class Counsel are seeking approval of :

74.1. Fees equivalent to 30% of the \$5 million settlement, namely \$1,5 million plus GST and QST, totalling \$224,625.

74.2. Disbursements totalling \$44,380.07.

[75] An objection was filed by a member stating that the percentage should be limited to 20% stressing that this is "une part appréciable du règlement négocié" and that the "objectif d'un recours collectif doit être l'intérêt de ceux qui ont été lésés et non pas de profiter démesurément aux avocats".¹⁹

[76] Representatives Schuringa and Leclair signed mandates with Class Counsel. Thereby, they agree that the fees shall be the higher of (1) 30% of the total amount received and (2) an amount equal to multiplying the total number hours worked in accordance with their hourly rate, which range between \$350 to \$750 per hour multiplied by four.

¹⁹ Exhibit R-10.

[77] The lawyers working for KND Complex Litigation logged time at the following rates:

- 77.1. Me Karp, a partner, who is a member in good standing of the Law Society of Ontario in 2007 and who is also a member of the Law Society of British Columbia, logged 55.9 hours at an hourly rate of \$750.
- 77.2. Me Nematollahi, a partner, who after having completed an LL.M at Harvard Law School in 2010, has been a member of the Law Society of Ontario since 2012 and of British Columbia since 2022, logged 652.27 hours, initially at an hourly rate \$625 which progressively increased to an hourly rate of \$750.
- 77.3. Mr. Davarinia, a partner, logged 64.8 hours, initially billed at \$500 per hour which then increased to \$600 per hour.
- 77.4. Mr. Tae Hook Shin, an associate, logged 905.43 hours initially at an hourly rate of \$150 which progressively increased to an hourly rate of \$335.

[78] Me Assor, a member of the Quebec Bar since 2021 and a member of the Ontario Law Society since 2021, logged 231.05 hours at a rate of \$750. Me Joannie Lévesque of his firm logged 63.15 hours.

[79] Class Counsel have agreed that KND Complex Litigation will be receiving 86,5% of the fees, while Lex Group will receive the other 13,5%.

[80] Justice Schrager writing for the Court of Appel in *A.B.* explains what must guide courts when they are called to approve plaintiff's counsel fees and disbursements²⁰:

- 80.1. Retainer agreements are presumed to be valid and can only be set aside if their execution would prove to be unfair and unreasonable for the members « dans les circonstances de la transaction examinée ». The agreement does not bind the Court²¹.
- 80.2. Art. 102 of the *Code of Professional Conduct of Lawyers* provides a list of factors to determine whether the fees are fair and reasonable.²² This list is not exhaustive.
- 80.3. To be reasonable, contingency rates must be between 15 % à 33 % of the settlement funds²³.
- 80.4. Each case « en est un d'espèce ». There is no « formule magique qui peut

en tout temps et en toute situation garantir que les honoraires seront raisonnables au final ».

[81] Mr. Justice Schrager then explains the mutliplier factor model. It consists of multiplying the hours worked by the lawyers by a multiplier which takes into account the risk assumed by the lawyers. Multipliers of 2 to 3 are held to be acceptable by courts but this does not mean that a multiplier greater than that cannot be justified in specific circumstances.²⁴

[82] Having set out these factors, Justice Schrager summarizes as follows the appropriate evaluation method:

[64] (...)le processus d'analyse devrait débuter par l'évaluation de tous les autres critères prévus dans le Code de déontologie et la prise en compte du risque assumé par les avocats. Si on en arrive à la conclusion que le montant (pas le pourcentage) d'honoraires payable est raisonnable, l'analyse peut s'arrêter dans l'exercice de la discrétion du juge. Par contre, si le montant d'honoraires semble déraisonnable, il convient dès lors de prendre en compte les heures consacrées au dossier et d'appliquer un facteur multiplicateur pour ajuster le montant des honoraires pour que celui-ci devienne raisonnable.

[83] In the present case, the 30% contingency fee is within the acceptable range, even though it is close to the maximum.

[84] In order to determine whether the fees fair and reasonable, resort must be had to the factors set out at s. 102 of the *Code of Professional Conduct of Lawyers*²⁵, namely :

- (1) experience;
- (2) the time and effort required and devoted to the matter;
- (3) the difficulty of the matter;
- (4) the importance of the matter to the client;
- (5) the responsibility assumed;
- (6) the performance of unusual professional services or professional services requiring special skills or exceptional speed;
- (7) the result obtained;
- (8) the fees prescribed by statute or regulation; and

²⁵ RLRQ, c. B-1, r. 3.1.

(9) the disbursements, fees, commissions, rebates, costs or other benefits that are or will be paid by a third party with respect to the mandate the client gave him.Le Tribunal estime que oui.

[85] Mes Assor, Karp and Nematollahi are very seasoned class action counsel. Securities litigation is complex, and, clearly, Mes Karp and Nematollahi bring a wealth of experience to the table. At the outset, Class Counsel assumed a significant risk and advanced significant disbursements. The file has progressed at a brisk pace.

[86] A wrench was thrown in the machinery with Xebec's filing for CCAA protection and the ensuing a stay of proceedings in favour of Xebec and its directors and officers in the fall of 2022. This made a complex matter even more complex.

[87] Class counsel continued forging ahead seeking a lifting of the stay and carrying out mediation and robust negotiations.

[88] The Court has reviewed the time sheets. The time logged is coherent with the tasks to be completed. However, the rates are excessive insofar as all tasks, however simple, are billed at rates which should be reserved for more complex tasks. In the case of Lex Group the average hourly rate, arrived at by dividing the total hours by the value is approximately \$650. For KND Complex Litigation, the average rate is close to \$610. It is true that it does not include all the time to be incurred to complete matters. This file called for professional services requiring special skills. Nevertheless, the Court would have expected an average rate closer to \$450.

[89] That being said, the Court reiterates that the risk level already high for a securities litigation file on full contingency, was taken several notches higher, when Xebec filed for CCAA protection.

[90] The result which was obtained is very favourable to the class.

[91] This leads the Court to conclude that the fees are fair and reasonable within the meaning of s. 102 of the *Code of Professional Conduct of Lawyers*.

[92] Even if it had concluded otherwise and used an average hourly rate of \$450, a multiplier of 3 would have been appropriate, which would have led to an amount of fees greater than the \$1,5 million which are sought.

[93] The Court has also examined whether it should reduce the amount of the settlement for purposes of calculating the fees by deducting the Claims Administrators \$165,000 fees. In the present case, contrarily to what was the case in *Frères du Sacré-Coeur*,²⁶ the claims do not have to be arbitrated. Velvet Payment will collect the

information electronically for the Claimants, will calculate the Compensable Loss and will carry out payment. This simple process is an added benefit to the claimants.

The Court further holds that the Claims Bar Deadline should be set at April 30, 2024.

SETTLEMENT OF XEBEC ADSORPTION INC. SECURITIES CLASS ACTION

[Date] – The Superior Court of Québec has approved a settlement of the class action proceedings against Xebec Adsorption Inc. IMPORTANT INFORMATION AND INSTRUCTIONS

1. Only shares of Xebec Adsorption Inc. that were purchased or acquired during the period from November 10, 2019 through to March 24, 2021 ("Class Period"), and which were held as of the close of trading on the Toronto Stock Exchange on March 11, 2021 or March 24, 2021, may be eligible to participate in this claims process ("Eligible Securities"). The location of the transaction or the location of the securities exchange on which the shares were acquired or purchased would not be relevant for the purposes of this claims process. Investors who represent Eligible Securities may participate in this claims process regardless of the country in which they reside or are domiciled ("Eligible Claimants").²⁷
2. Eligible Claimants may participate in the claims process regardless of whether they subsequently sold the Eligible Securities, or that they continue to hold the Eligible Securities.
3. If an Eligible Claimant purchased or acquired shares of Xebec Adsorption Inc. in multiple transactions, to determine which ones were held through or sold and, if sold, to determine the price at which they were sold, apply the First-In, First-Out method ("FIFO"). In attendance with the FIFO method, shares will be deemed to have been sold in the order they were purchased. For example, if an Eligible Claimant's list of transactions of shares of Xebec Adsorption Inc. in the secondary market was as follows:

No.	Transaction Date(s) (DD/MM/YY)	Purchase or Sale	Number of Shares Purchased/Sold
A	11/05/2019	Purchase	1,000
B	30/11/2020	Purchase	2,000
C	10/03/2020	Sale	1,500
D	01/04/2021	Sale	500

Transaction A was carried out outside of the Class Period, therefore does not represent Eligible Securities;

Transaction B was carried out within the Class Period, and it would represent Eligible Securities if those shares are held as of the close of trading on the Toronto Stock Exchange on March 11, 2021 or March 24, 2021;

Transaction C is applied against the 1,000 shares purchased on May 11, 2019 as well as 500 of the shares purchased on November 30, 2020. Therefore, 1,500 of the shares that were purchased on November 30, 2020 continued to be held as of the close of trading on the Toronto Stock Exchange on March 11, 2021 or March 24, 2021, and they are Eligible Securities.

²⁷ Per the terms of the Settlement Agreement and the Orders of the Court, a limited group of persons and entities are excluded from this definition, and they may not participate in the claims process. Visit www.xebecsecuritiessettlement.com for more information.

Transaction D is applied against 500 of the 1,500 Eligible Securities that were purchased on November 30, 2020. Therefore, this Eligible Claimant:

- a) purchased 1,500 Eligible Securities on November 30, 2020;
 - b) sold 500 of those 1,500 Eligible Securities on April 1, 2021; and
 - c) continues to hold 1,000 of those Eligible Securities.
4. If the purchases and/or sales were carried out in other than Canadian currency, please use this tool available on the website of Bank of Canada to convert the purchase or sale price to Canadian currency as of the applicable date of the transaction(s). <https://www.bankofcanada.ca/rates/exchange/currency-converter/>
 5. If there are multiple eligible purchases and/or sales, please provide the average purchase price and/or average selling price with respect to those Eligible Securities.
 6. Please upload supporting documents (namely, account statements) demonstrating your purchase(s)/sale(s) of shares of Xebec Adsorption Inc. Note that supporting documentation is required in order for the Claims Administrator to process your claim.
 7. Where possible, the Claim Administrator will issue payments by e-transfer to the email address provided in this Claim Form. By completing and submitting this Claim Form you consent to receiving payment through e-transfer. If the Claim Administrator determines that e-transfer is not available or that it is not feasible, the Claim Administrator will issue a cheque deliverable to the mailing address provided in this Claim Form.
 8. All payments will be issued in Canadian currency.

NOTE: If the Claims Administrator determines that your distribution amount is LESS THAN \$25, the Claims Administrator will NOT issue a payment to you.

RENSEIGNEMENTS IMPORTANTS ET DIRECTIVES

9. Seules les actions de Xebec Adsorption Inc. achetées ou acquises entre le 10 novembre 2019 et le 24 mars 2021 (la « Période visée par le recours ») et qui étaient détenues à la clôture des échanges à la Bourse de Toronto le 11 mars 2021 ou le 24 mars 2021 peuvent être admissibles dans le cadre de ce Processus de réclamation (« Titres admissibles »). L'emplacement de l'opération ou de la bourse des valeurs où les actions ont été acquises ou achetées est sans intérêt dans le cadre du présent Processus

de réclamation. Les investisseurs qui représentent les Titres admissibles peuvent participer au présent Processus de réclamation quel que soit leur pays de résidence ou de domicile (« Réclamants admissibles »).²⁸

10. Les Réclamants admissibles peuvent participer au Processus de réclamation, qu'ils aient ou non revendu les Titres admissibles subséquemment.
11. Si un Réclamant admissible a acheté ou acquis des Actions de Xebec Adsorption Inc. en plusieurs opérations, il faut appliquer la méthode *premier entré, premier sorti* (« PEPS ») pour déterminer les actions qu'il détient toujours et celles qu'il a revendues, et, le cas échéant, pour déterminer le prix de revente. Conformément à la méthode PEPS, les actions seront réputées vendues suivant l'ordre selon lequel elles ont été achetées. Par exemple, si la liste des opérations concernant les actions de Xebec Adsorption Inc. sur le marché secondaire d'un Réclamant admissible était comme suit :

Nº	Date de l'opération (JJ/MM/AA)	Achat ou vente	Nombre d'actions achetées ou vendues
A	11/05/2019	Achat	1 000
B	30/11/2020	Achat	2 000
C	10/03/2020	Vente	1 500
D	01/04/2021	Vente	500

L'**opération A** a été réalisée à l'extérieur de la Période visée par le recours; elle ne représente donc pas des Titres admissibles.

L'**opération B** a été réalisée pendant la Période visée par le recours et elle représenterait des Titres admissibles si celles-ci étaient toujours détenues à la clôture des échanges à la Bourse de Toronto le 11 mars 2021 ou le 24 mars 2021.

L'**opération C** est portée en diminution des 1 000 actions achetées le 11 mai 2019 et de 500 des actions achetées le 30 novembre 2020. Donc, 1 500 des actions achetées le 30 novembre 2020 étaient toujours détenues à la clôture des échanges à la Bourse de Toronto le 11 mars 2021 ou le 24 mars 2021 et sont des Titres admissibles.

²⁸Conformément aux modalités de l'Entente de règlement et des ordonnances de la cour, un nombre limité de personnes et d'entités sont exclues de cette définition et ne peuvent pas participer au Processus de réclamation. Consultez la page www.xebecsecuritiessettlement.com pour obtenir plus de renseignements.

L'opération D est portée en diminution de 500 des 1 500 Titres admissibles qui ont été achetées le 30 novembre 2020. Ainsi, ce Réclamant admissible :

- d) a acheté 1 500 Titres admissibles le 30 novembre 2020;
- e) a vendu 500 de ces 1 500 Titres admissibles le 1^{er} avril 2021;
- f) détient toujours 1 000 de ces Titres admissibles.

12. Si les achats et/ou les ventes ont été réalisés en devises autre que canadiennes, veuillez utiliser l'outil prévu sur le site Web de la Banque du Canada pour convertir le prix de l'achat ou de la vente en devises canadiennes à la date de l'opération ou des opérations.
<https://www.banquedcanada.ca/taux/taux-de-change/convertisseur-de-devises/>

13. S'il y a plusieurs ventes et/ou achats admissibles, veuillez fournir le prix d'achat moyen et/ou le prix de vente moyen de ces Titres admissibles.

14. Veuillez téléverser les documents justificatifs (relevés de compte) indiquant les ventes et/ou les achats d'actions de Xebec Adsorption Inc. Prenez note que l'Administrateur des réclamations doit obtenir les documents justificatifs pour traiter votre réclamation.

15. Le cas échéant, l'Administrateur des réclamations enverra un paiement sous forme de virement électronique à l'adresse courriel indiquée dans le présent Formulaire de réclamation. En soumettant le présent Formulaire de réclamation, vous consentez à recevoir un paiement par virement électronique. Si l'Administrateur de réclamation détermine qu'un virement électronique n'est pas possible, un chèque sera délivré à l'adresse indiquée dans le présent Formulaire de réclamation.

16. Tous les paiements seront délivrés en devises canadiennes.

REMARQUE : Si l'Administrateur des réclamations détermine que le montant de répartition s'élève à MOINS DE 25 \$, vous NE recevrez AUCUN paiement.

SI VOUS ÊTES UN ACHETEUR SUR LE MARCHÉ SECONDAIRE (c'est-à-dire un Réclamant admissible, où qu'il réside ou soit domicilié, ayant acheté des actions ordinaires de Xebec sur le marché secondaire, d'une bourse des valeurs; mais qui exclut expressément les Personnes exclues);
